MEMORANDUM FOR CIF USERS

SUBJECT: Software Version Description (SVD) for Installation Support Module (ISM) Central Issue Facility (CIF) Interim Change Package (ICP) LA2-A09-04-02

1. Enclosed is ICP LA2-A09-04-02 which provides a formal change to the Central Issue Facility (CIF) ISM.
2. Acknowledgement of installation of this ICP must be made IAW instructions provided in Enclosure 1.
3. This memorandum certifies that the ISM subject software has been thoroughly tested, is considered to be a quality product, and is hereby authorized for release to a production environment.
4. Security Implications: NONE.

1. Scope.

1.1 Identification. This Software Version Description (SVD) applies to the Central Issue Facility (CIF) running on Army Standard Information Management System (ASIMS) and networked AIX version 4.2 operating system on UNIX platforms.

1.2 System Overview. CIF is part of the ISM Project that is an army-wide Major Automated Information System (MAIS) initiative. The primary objective of ISM is to enhance, through automation, installation management functions. ISM applications consist of standard procedures packaged into functional applications that automate as well as integrate day-to-day installation processes. ISM applications use the Installation Level Integrated Data Base (ILIDB), which is the central repository for data that is common to more than one ISM application, and various local databases that contain data elements unique to the individual ISM applications.

The purpose of the CIF ISM is to provide precise management of organizational clothing and individual equipment (OCIE) in a central issue facility. Benefits expected from using CIF include improved overall property management, increased accuracy and timeliness of CIF information, and decreased administrative costs. CIF functions are computing and maintaining stockage levels, processing and documenting OCIE records, maintaining supply records, and preparing required reports.

1.3 Document Overview. This document provides the instructions necessary for the implementation of the formal Interim Change Package (ICP) LA2-A09-04-02 of CIF. It informs the users of the changes made to the system and provides Point of Contacts (POCs) to be contacted in case of problems.

2. Referenced Documents.

2.1 Referenced Documents. This paragraph has been tailored out.

3. Version Description.

3.1 Inventory of Materials Released. This paragraph has been tailored out.

3.2 Inventory of Software Contents. Hardware platform - AIX OS users (installation supported). This change package

Change Control Package Number: LA2-A09-04-02

contains the following files.

	<u>PROGRAM</u>	<u>VERSION</u>	<u>UPDATE</u>
	cif_0402.cpio.Z	0400	28 February
2000	install_cif_0402	0400	28 February
2000	README.cif_0402	0400	28 February
2000			

3.3 Changes Installed.

3.3.1 Corrector Descriptions - Technical.

1. ECP-S/E LA2-A15N-855
 - A. CYCLES: None.
 - B. PROGRAM: CIF
 - C. PROBLEM: Programmers have identified a problem with the process used when Laundry and Maintenance tickets are closed with non-received items remaining open. The non-received quantity is not being deducted from the On Hand balance of the correct NSN..
 - D. RESOLUTION: Change the program to ensure that the Quantity of items not returned is subtracted from on hand balance of the correct NSN.
 - E. ICP: LA2-A09-04-02
2. ECP-S/E LA2-S460-024
 - A. CYCLES: None.
 - B. PROGRAM: CIF
 - C. PROBLEM: Open incomplete worksheets are not being reported on PCN A09-5300, Individuals with Incomplete Worksheets Report.
 - D. RESOLUTION: Fix the report to properly generate a list of Incomplete Worksheets for both issue and turn-ins. The list should include all incomplete worksheets and should stay on the list until abstracted.
 - E. ICP: LA2-A09-04-02
3. ECP-S/E LA2-A15N-856
 - A. CYCLES: None.
 - B. PROGRAM: CIF
 - C. PROBLEM: SIDPERS data has proven to be of such poor

Change Control Package Number: LA2-A09-04-02

quality that it is necessary to disable the automatic EOD processing update of UIC codes that was instituted in version 04.00.

D. RESOLUTION: Modify code to disable automatic EOD update of UIC codes.

E. ICP: LA2-A09-04-02

3.3.2 Corrector Descriptions - Functional. None

3.3.3 Summary of Changes.

- a. Copy library member changes.
 - 1. Changed: None.
 - 2. Deleted: None.
 - 3. Added: None.
- b. Control library member changes.
 - 1. Changed: None.
 - 2. Deleted: None.
 - 3. Added: None.

3.4 Adaptation Data. This paragraph has been tailored out.

3.5 Related Documents.

3.5.1 Technical Documentation Changes. A new AIX version of Software Center Operator Manual (SCOM), AISM 25-LA2-A09-AIX-SCOM dated 10 December 1999 has been issued. This current version of AISM 25-LA2-A09-AIX-SCOM may be obtained from:

U.S. Army Information Systems Software Center
Executive Software Systems Directorate
Attn: AMSEL-SE-IS-C, Stop H-6.
Fort Belvoir, VA 22060-5576.

3.5.2 Functional Manual Changes. A new AIX version of Software User Manual (SUM), AISM 25-LA2-A09-AIX-SUM dated 01 December 1999 has been issued. This current version of AISM 25-LA2-A09-AIX-SUM may be obtained from:

U.S. Army Information Systems Software Center
Executive Software Systems Directorate
Attn: AMSEL-SE-IS-C, Stop H-6.
Fort Belvoir, VA 22060-5576.

Change Control Package Number: LA2-A09-04-02

3.6 Installation Instructions. These instructions explain how to install CIF ICP LA2-A09-04-02 onto the host computer at the installations.

Pre-Install Procedure. Before beginning to install CIF ICP LA2-A09-04-02 onto the ISM host computer, follow this procedure to make sure you have the information you will need when installing.

STEP 1. Verify Oracle. The Oracle RDBMS must reside on the host and be on-line.

Install Procedure. This procedure installs ICP 04.02 for CIF R04.02 onto the ANSOC server. This portion of CIF R04.02 must be installed on each server at the ANSOC.

STEP 1: Make sure there is a login account and directory for "cif".

STEP 2: Make sure CIF release 04.01 is already installed.

STEP 3: Login with the login name of "root".

STEP 4: Change directory to /tmp. Make a directory named "cifICP.0402".

STEP 5: Change directory to /tmp/cifICP.0402. Copy the following files to /tmp/cifICP.0402:

cif_0402.cpio.Z	7020865	6 Mar 2000
install_cif_0402	2563	6 Mar 2000
README.cif_0402	1375	23 Feb 2000

STEP 6: Execute the following commands:

```
chmod 777 install_cif_0402 <Enter>
./install_cif_0402 <Enter>
```

STEP 7: The install_cif_0402 script will:

- (1) Un-compress the cif_0402.cpio.Z file. Then it will un-cpio the cif_0402.cpio file into the home directory of user "cif".
- (2) Change the ownership and mode of the files to the correct settings.

Change Control Package Number: LA2-A09-04-02

- (3) It will record all output(s) from each of the steps performed in a file named "cif_0402.log" located in the /tmp/cifICP.0402 directory.

NOTE: The resulting log, cif_0402.log, should then be copied to the directory /files/home/staff/sdcw upon termination of the installation process. This resulting log should then be reviewed.

3.6.1 Installation Effective Date. This ICP should be immediately implemented upon receipt or NLT 30 days from date of receipt.

3.6.2 Security Implications. This paragraph has been tailored out.

3.6.3 ANSOC Installation Instructions. All users receive the same baseline with change package number through e-mail and Status Tracking and Reporting System (STARS) Bulletin Board System (BBS). This change package contains the following files:

<u>Quantity</u>	<u>File ID</u>	<u>System</u>	<u>Change Package</u>
1	cif_0402.cpio.Z	AIX OS 4.2	LA2-A09-04-02
	README.cif_0402		
	install_cif_0402		

Ensure that all master file backups have been completed prior to loading this package.

Use these load instructions to develop load procedures that work best for your installation.

Due to various user configurations, each installation must determine appropriate block-size and library allocations.

Users must not, repeat, must not, make changes to the files. Security impact: None.

3.6.4 Special Installation Instructions - All Users. None.

3.6.5 Point of Contact. If there are any problems or questions with the installation, or any shortage to the contents of this package, call the Army Network and Systems Operator Center (ANSOC), Ft. Huachuca: DSN 879-6798/6858 or 1-800-305-3036.

3.6.6 Report of Implementation. Implementation of this change package must be reported by completing the change

Change Control Package Number: LA2-A09-04-02

package implementation form. This report must be sent to Ft. Huachuca using Fax or mail.

3.7 Possible Problems and Known Errors. This paragraph has been tailored out.

4.0 Notes.

4.1 Notes. This paragraph has been tailored out.
